Profile

About Us.

OandM Engineering Limited is a distinguished industrial solutions provider specializing in Technical and Engineering Services. With a rich legacy of proven experience, we are committed to delivering comprehensive solutions tailored to meet the unique needs of our clients across various industries.

Established with a vision to empower industries and maximize productivity, OandM Engineering Limited excels in the following areas. designing, installing, commissioning, maintaining, and overhauling systems and processes. Our expertise spans a wide spectrum, encompassing electrical and Automation, mechanical solutions, Industry-Customized solutions and Supply of Industrial spares-ensuring seamless integration and optimal performance.

At OandM Engineering Limited, we pride ourselves on our relentless pursuit of excellence and innovation. Our team of highly skilled engineers, technicians, and industry experts work collaboratively to develop cutting-edge solutions that drive efficiency, enhance reliability, and yield sustainable results for our clients.

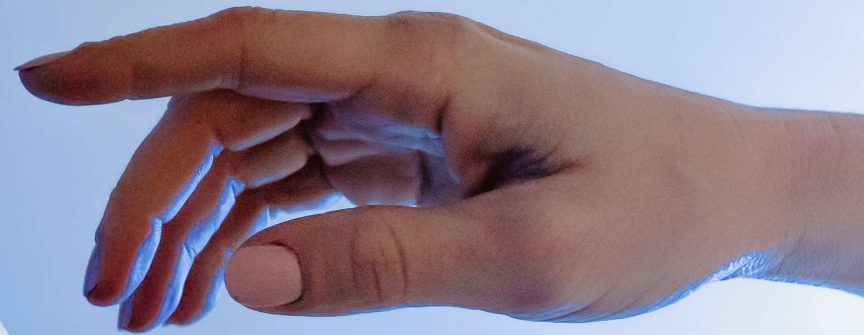

About Us Contd.

With a client-centric approach, we prioritize understanding the specific challenges and goals of each organization we serve. Through meticulous planning, precise execution, and continuous support, we forge enduring partnerships built on trust, reliability, and exceptional service.

Our commitment to quality, safety, and environmental stewardship underscores every project we undertake. We adhere to the highest industry standards and leverage best practices to ensure the utmost satisfaction and success of our clients.

As a forward-thinking company, OandM Engineering Limited is dedicated to staying at the forefront of technological advancements and industry trends. We invest in research, development, and training initiatives to remain agile and responsive to evolving market demands.

Driven by a passion for innovation and a dedication to client success, OandM Engineering Limited is poised to redefine the landscape of industrial solutions. We invite you to partner with us on your journey towards achieving operational excellence and unlocking the full potential of your enterprise.

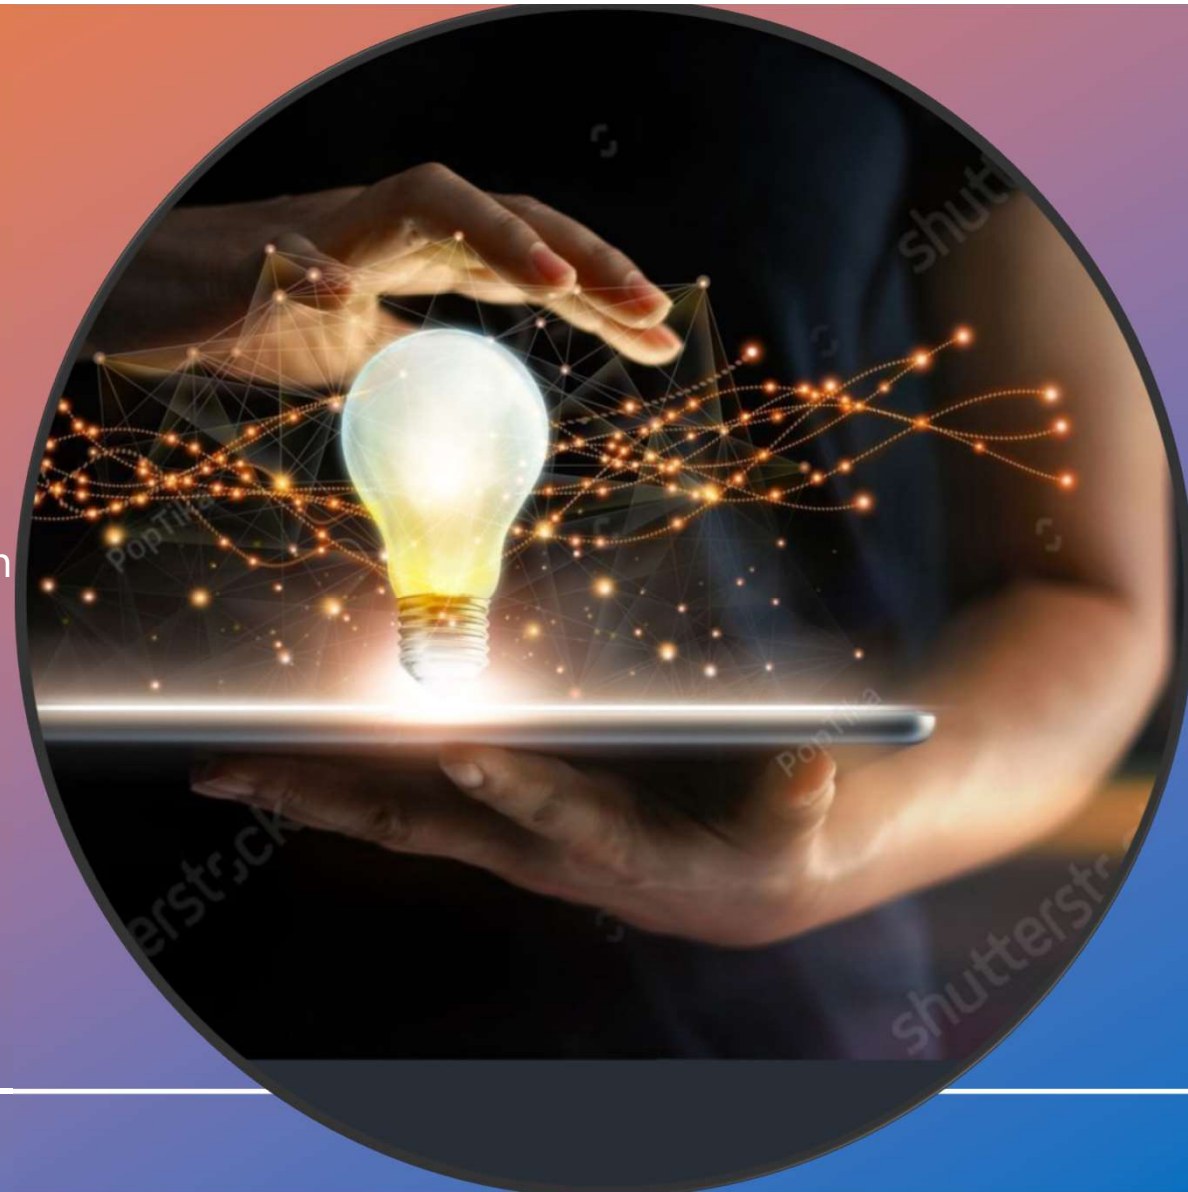

Our Vision

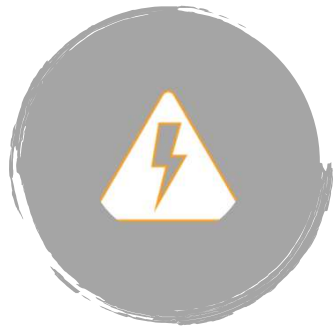

OandM Engineering Limited aims to lead industrial solutions through pioneering innovations and redefined standards, catering to organizations with superior technical and engineering services driven by continuous improvement and a client-centric approach.

Our Mission

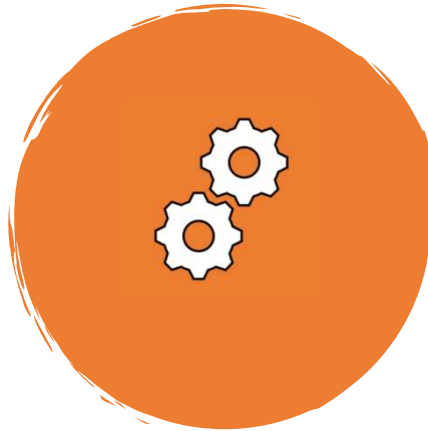

At OandM Engineering Limited, our mission is to be the trusted partner for industries seeking unparalleled technical and engineering solutions. We are dedicated to designing, installing, commissioning, maintaining, and overhauling systems and processes that optimize productivity, enhance efficiency, and drive sustainable success for our clients.

Technical Services We Offer

**Electrical and Automation
Services**

Mechanical Solutions

**Industry Custom Solutions and Supply
of Spares**

ELECTRICAL AND AUTOMATION SERVICES

- Design, installation, and maintenance of electrical systems
- PLC programming and automation solutions
- Control panel design and fabrication
- SCADA system integration and implementation
- Remote monitoring and diagnostics
- Electrical safety audits and compliance assessments

MECHANICAL PIPING AND FABRICATION

- Design and fabrication of mechanical systems and equipment
- Piping layout and installation
- Welding and fabrication services
- Pressure vessel fabrication and inspection
- HVAC system design and installation
- Mechanical equipment maintenance and repair

INDUSTRY-CUSTOMIZED SOLUTIONS

- Tailored solutions for specific industries such as manufacturing, energy, pharmaceuticals, and more
- Process optimization and efficiency improvement initiatives
- Customized equipment design and fabrication
- Turnkey project management and execution
- Rapid prototyping and product development
- Advanced modeling and simulation services

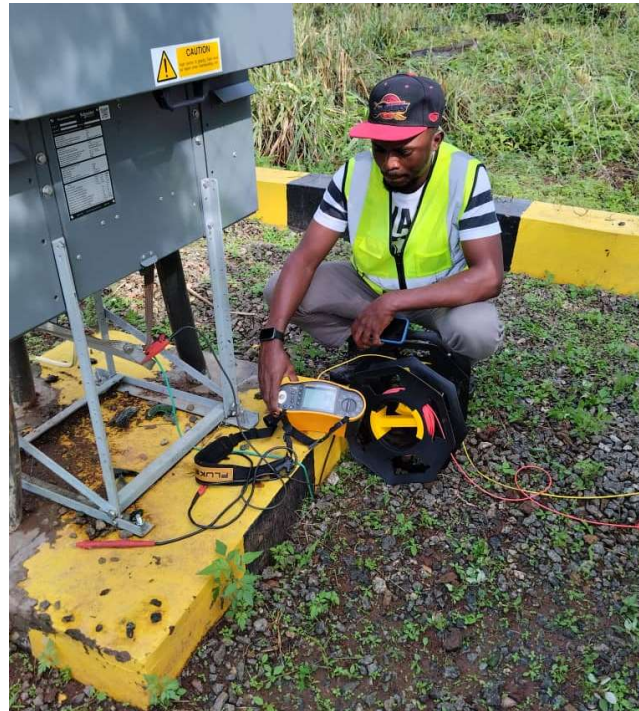

SUPPLY OF INDUSTRIAL SPARES

- Comprehensive inventory of industrial spares and components
- OEM and aftermarket parts sourcing
- Just-in-time delivery services
- Spare parts management and inventory optimization
- Technical support and troubleshooting assistance
- Warranty and post-sales support
